## **DETAILED ACTION**

1. This is in responding to the amendment filed 02/05/2007.

### ***Allowable Subject Matter***

2. Claims 1-12 are allowed.
3. The following is an examiner's statement of reasons for allowance:

As to claims 1, 8, the prior art as taught by Abe et al (US. Patent 5,906,000) in view of Barnaby et al (US. Patent 6,006,303) do not teach or render obvious the limitations recited in claims 1, 8, when taken in the context of the claims as a whole, access priority values to a plurality of the address space regions, where at least some of the plurality of the address space regions include a plurality of addressable locations, each MMU being operable to output the access priority value associated with a received address as recited in the independent claims 1, 8. Moreover, evidence for modifying the prior art teachings by one of ordinary skill level in the art was not uncovered so as to result in the invention as recited in claims 1, 8.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
